

PREMIUM PAIN MANAGEMENT PRODUCTS

LCCS Medical Inc.

What makes us a great partner?

Committed to being the most trusted partner.

Reliable nationwide distribution.

Superior customer service.

Deliver high quality products.

History of LCCS Medical Inc.

LCCS Medical Inc. is a privately held company that develops, manufactures, markets and distributes premium quality specialty medical devices for pain management and regional anesthesia. Every device is designed precisely for our physician partners to aid in the comfort of patients while also bettering surgical outcomes

LCCS started developing RF pain management and regional anesthesia products in 2009, and entered the U.S. market in 2011. Our RF Cannulas, RF Electrodes, and Grounding Pads, along with Spinal Needles and Epidural Needles are U.S. FDA-approved. Additionally, the RF Cannula and RF Electrodes are CE marked. We maintain an industry-leading quality system certified to ISO 13485 by TUV Rhineland and fully conform to the U.S. FDA 21 CFR 820. Our U.S. headquarters distributes these physician preferred devices to customers nationwide.

About

LCCS Medical Inc. started developing RF pain management and regional anesthesia products in 2009. We started selling these products to the U.S. market in 2011 through our exclusive nationwide distributors before taking on distribution ourselves in 2018. In those eight years, we have had zero FDA incidents.
